IBI Group Architects has applied to the City of Vancouver for permission for renovations to the Children's and Women's Health Centre of BC Hospital Site. The proposal includes the following:

- an addition and interior renovation to levels 1 and 3 of the Children's Hospital to provide a new therapy pool, treatment and support spaces, rehabilitation garden and roof terrace; and
- an addition and interior renovations to level 2 of the Women's Hospital to expand the Single Room Maternity Care.

Under the site's existing CD-1 zoning, the application is "conditional" so it may be permitted; however, it requires the decision of the Director of Planning.
